CHOLERA PREVENTIVE!

I.
X, 1866. L.
THE GREAT ZINGARI BITTERS.

THIS WONDERFUL REMEDY was discovered and introduced about twenty years ago by Dr. S. Cheopsus, an eminent Egyptian physcian.

He had long seen and felt the want of some remedy which would strike at the root of disease, and so prevent much of the suffering which the human family was then compelled to endure.

The great question was presented to his mind every day in vivid colors as he moved among the sick and dying, and observed the inefficiency of nearly all the remedies then in use. Thus he was lead to think and experiment; and after ten years of study and labor, he presented to his fellow man the wonderful Zingari Bitters. The effect of this preparation in the prevention and cure of disease, was so marvellous and astonishing, that the most flattering marks of royal favor were bestowed upon him who discovered it. His name was placed upon the Roll of Nobles, and a gold medal with the following inscription—Dr. S. Cheopsus, the Public Benefactor—was presented to him by the Viceroy.

The preparation has been used in several epidemics of cholera, both as a preventive and curative measure, and with such great success that it has been introduced into nearly all the general hospitals of the old world.

The old saying that an ounce of prevention is worth a pound of cure, applies with marvellous force to cholera, and therefore any remedy that will protect us against this terrible disease should be freely and persistently used.

All pathologists now agree that the cholera poison acts on the system through the blood, and that any combination which acts on the excretory organs, and keeps them in working order, must prevent a sufficient accumulation of the poison to exert its terrible effects on the organism. This is true not only of cholera, but of nearly all other maladies, especially the different forms of fevers.

The Zingari Bitters is just such a remedy as the above conditions require. It acts on the organs of excretion and secretion, keeping up a perfect balance between them. This Bitters is composed entirely of roots and herbs, so nicely concocted that every organ is acted upon and put in tone. Its taste is pleasant and its effects prompt and lasting.

Numerous cases of the following diseases have been cured by it: Cholera, Diarrhoea, Typhoid and Typhus Fever, Fever, Ague, Nervous Debility, Anaemia, Female Irregularities, Dyspepsia, Flatulency, Colic, Scrofula, &c.

Price, one dollar per quart bottle.

Selected Poetry.

OCTOBER.

BY LYDIA A. CALDWELL.

The year grows splendid! on the mountain steep
Now lingers long the warm and gorgeous light,
Dying by slow degrees into the deep
Delicious night.

The final triumph of the perfect year,
Rises the woods' magnificent array,
Beyond, the purple mountain heights appear,
And slope away.

The elm, with musical, slow motion, laves
His long, lithe branches in the tender air;
While from the top the gay Sordello waves
Her scarlet hair.

Where Spring first hid her violets 'neath the fern,
Where Summer's fingers open, fold after fold,
The odorous, wild, red rose's heart, now burn
The leaves of gold.

The loftiest hill—the lowliest flowering herb—
The fairest fruit of season and of clime—
All wear alike the fruit of the superb
Autumnal time.

Now nature pours her last and noblest wine!
Like some Bacchante beside the singing streams,
Reclines the enchanted Day, rapt in divine,
Impassioned dreams.

But where the painted leaves are falling,
Among the vales, beyond the farthest hill,
There sits a shadow—dim, and sad, and vast—
And lingers still.

And still we hear a voice among the hills—
A voice that mourns among the haunted woods,
And with the mystery of its sorrow fills
The solitudes.

For while gay Autumn gilds the fruit and leaf,
And doth her fairest festal garments wear,
Lo! Time, all noiseless, in his mighty sheaf
Binds up the year.

The mighty sheaf which never is unbound!
The reaper whom our souls beseech in vain!
The loved, lost years that never may be found,
Or loved again!

Agricultural & Domestic.

SELECTION OF FRUIT TREES.

The Gardener's Monthly states that a great revolution has occurred in the selection of fruit trees for planting. Bushey plants are now most in favor, as the shade made by the lateral branches is deemed favorable to the growth and health of the tree. The ground should be rich and deeply worked for a considerable distance from the roots, for the purpose of allowing the laterals a chance to extend themselves with ease and freedom. Some people, in planting an apple tree, dig a hole into clayey soil just large enough to receive the root by pressing it down, and fill in, and that is all. The tree, if it lives at all, is a poor, sickly thing, and the planter wonders what the matter is that his trees do not thrive.—Bad management in planting is responsible for the failure, and nothing else.

LIMING FRUIT TREES.

F. K. Phœnix, Bloomington, Ill., writes the Horticulturist as follows: "A neighbor amateur has this year grown about a bushel of most delicious Imperial Gage Plums on one tree, passed to him some three years since by a brother, who said, 'No use to try to grow plums!' After it was planted out one year the family woodpile was corded up under and about it, and after the fruit had set, and so long as any fear of curculio was entertained, a plentiful supply of air slacked lime dust was scattered over the top every week, or twice a week. Last year it had a peck, and this year a bushel or so—and here you have the whole story."

The writer says he is a profound believer in the efficacy of a similar course of treatment, so far as dusting with lime, &c., not merely for curculio, but for the whole herd of insects, mildew and fungi generally.

RECIPE FOR CURING MEAT.

To one gallon of water, take 1½ lbs. of salt, ½ lb. of sugar, ½ oz. of saltpetre, ½ oz. of potash.

In this ratio the pickle to be increased to any quanity desired. Let these be boiled together, until all the dirt from the sugar rises to the top and is skimmed off. Then throw it into a tub to cool, and when cold pour it over your beef or pork, to remain the usual time, say four or five weeks. The meat must be well covered with pickle, and should not be put down for at least two days after killing, during which time it should be slightly sprinkled with powdered saltpetre, which removes all the surface blood, &c., leaving the meat fresh and clean. Some omit boiling the pickle, and find it to answer well, though the operation of boiling purifies the pickle by throwing off the dirt always to be found in salt and sugar.

If this recipe is properly tried it will never be abandoned. There is none that surpasses it, if so good.

TO PICKLE RED CABBAGE.

Take a firm, fresh cabbage, remove the whole of the outer leaves, keeping the ball entire. Cut it into four quarters, and, subsequently into strips, and place them on a hair sieve or a clean, dry cloth, and sprinkle with salt. Let them remain for three days to allow the brine to drain off. After they are thoroughly drained, put them into a clean jar. Take as much vinegar as will cover them, and let it simmer over a slow fire, with allspice, whole, black pepper, coarse brown ginger, and a little pimento. When the vinegar is sufficiently flavored let it cool, and pour it over the cabbage in the jar, which must be stopped down for use and kept for three months.

WHO CAN BEAT HIM?

John Hartfoot, of German township, Fayette county, sowed three bushels of buckwheat, and raised from the same three hundred and six bushels. On one stalk there were thirty-five hundred grains! Can our Adams county farmers beat this?

As a single drop of black ink will tinge and pollute a vessel of crystal water, so one little act of faithlessness may irredeemably poison a whole lifetime of the purest friendship and confidence.

Choice Miscellany.

VALUE OF ACCURACY.

It is the result of every day's experience that steady attention to matters of detail lies at the root of human progress, and that diligence, above all, is the mother of good luck. Accuracy is also of much importance, and an invariable mark of good training in a man—accuracy in observation, accuracy in speech, accuracy in the transaction of affairs. What is done in business must be well done; for it is better to accomplish perfectly a small amount of work than to half-do ten times as much. A wise man used to say, "stay a little that we may make an end the sooner." Too little attention, however, is paid to this highly important quality of accuracy. As a man versed in practical science lately observed, "it is *astonishing how few people I have met* in the course of my experience who can define a fact accurately." Yet in business affairs, it is the manner even in which small matters are transacted that often turn men for or against you. With virtue, capacity and good conduct in other respects, the person who is habitually inaccurate in other respects cannot be trusted; his work has to be done over again; and he thus causes endless annoyance, vexation and trouble.

PROFIT AND LOSS.

A Western candidate for Congress, who had a large and well stocked farm, was annoyed at the almost nightly disappearance from his premises of a number of hogs. A vigilant watch enabled him to detect the thief, who proved to be a neighbor, and a warm political friend of the candidate—one, in fact, upon whose assistance he greatly relied in the coming canvass. He disliked to lose his support, and he disliked more the idea of losing his hogs; so he made up his mind to be frank with the thief, and try to save in more senses than one, his bacon. He went at once to his neighbor; told him what he had ascertained; expressed his desire not to make a public exposure, and said: "Now, I make this proposition—if you will let my hogs alone in the future, I will not only say nothing of the past, but when I kill in the fall, I'll put into your cellar five barrels of as good pork as I make."

The fellow reflected a moment, and replied: "Well, 'squire, that's a fair proposition, anyhow, and seeing as it's you, I'll do it; but I vow I believe I shall lose pork by the operation."

SHARP LESSONS.

Under the reign of the first caliphs, there was a merchant at Bagdad equally rich and avaricious.

One day he bargained with a porter to carry home for him a large basket of porcelain vases for ten paras. As they went along, he said to the man:

"My friend, you are young, and I am old; you can still earn plenty. Strike off, I entreat you, a para from your hire."

"Willingly," replied the porter.

This request was repeated again and again, until, when they reached the house, the porter had only a single para to receive. As they went up the stairs the merchant said.

"If you will resign the last para, I will give you three pieces of advice."

"Be it so," said the porter.

"Well then," said the merchant, "if any one tells you it is better to be fasting than feasting, do not believe him; if any one tells you it is better to be poor than rich, do not believe him; if any one tells you it is better to walk than ride, do not believe him."

"My good sir," replied the astonished porter, "I knew these things before; but, if you will listen to me, I will give you advice such as you never heard."

The merchant turned round, and the porter, throwing the basket down the staircase, said to him,

"If any one tells you that one of your vases remains unbroken do not believe him."

Before the miser could reply the porter had made his escape.

AFRAID HE MIGHT BE DEAD.

Scene at the counting-room of a morning newspaper. Enter, a man of Teutonic tendencies, considerably the worse for last night's spree.

Teuton—(To the man at the desk)—"If you blease, sir, I vants de baper *mit dis* mornings. One vot hash de names of de beebles vot kills cholera all de vile."

He was handed a paper, and after looking it over in a confused way, said,

"Vill you pe so good ash to read de names wot don't have *de cholera* any more too soon just now, and see if Carl Geinsenkoopenoffen hash got 'em?"

The clerk very obligingly read the list, the Teuton listening with trembling attention, wiping the perspiration from his brow meanwhile, in great excitement. When the list was completed, the name of Carl Geinsen——, well, no matter about the whole name, it wasn't there. The Teuton's face brightened up, and he exclaimed:

"You don't find 'em?"

Clerk—"No such name there, sir."

Teuton—(Seizing him warmly by the hand)—"Dish ish nice—ish dishsome funs—dat ish my names. I pin trunk as never vas, and, py tam, I vas fraid I vas gone ted mit cholera, and didn't know it. Mine Got! I vas scart."

A contributor to the Drawer of Harper's Monthly tells a story of a certain deacon who was one of the best of men, but by nature very irascible. A cow was so exceedingly disorderly, as the deacon was attempting to milk her one morning, that the old Adam got the better of him, and he vented his excited feelings in a volley of execrations very undeaconish in their character. At this moment the good deacon's pastor appeared unexpectedly on the scene and announced his presence by saying,—"Why deacon! can it be? Are you swearing?" "Well, parson," replied the deacon, "I didn't think of any one being near by; but the truth is, I never shall enjoy religion as long as I keep this cow!"

Sharpe on the Tools.—"Have you ground all the tools right, as I told you this morning when I went away?" said a carpenter to a rather green lad whom he had taken for an apprentice. "All but the handsaw, sir," replied the lad promptly; "I couldn't get all the gaps out of that."

A Hard Shell Baptist preached in Washington City lately, and took for his text: "God made man in his own image." He thus commenced: "An honest man is the noblest work of God."—Then he made a long pause and looked searchingly about the audience, and then exclaimed, "But God Almighty hasn't had a job in this city for nigh on to fifty years."

A Good Toast.—At a printers' festival lately, the following toast was given: "Women—second only to the press in the dissemination of news!"

POLITICAL ECONOMY AND MENTAL ARITHMETIC.

A DIALOGUE.

Son—Father, how much money do you make in a year?

Father—About $800, my son.

S.—And you work every day?

F.—Every day, except Sunday, my son.

S.—Well, father, how much does a Congressman get?

F.—They used to get $3,000 a year, but they raised it to $5,000 last month.

S.—Well, does a member of Congress have to work every day?

F.—Oh! no, my son. There are two sessions of Congress in two years—a long and a short one. Now, if you remember your mental arithmetic that you learn at school, you can tell just how long a Congressman has to work. How many days are there in a month?

S.—Thirty.

F.—Well, the long session began on the 4th of December, 1865, and lasted till the 23d of July, 1866. How long is that.

S.—232 days.

F.—Now, take from that two weeks for Christmas holidays, and how much does that leave?

S.—218 days.

F.—Well, the short session next winter is only ninety days by law. How much are 90 and 218.

S.—308 days. Is that all they have to work in two years?

F.—That is all, my son.

S.—And then two years' pay is $10,000. Let's see, 30 into 10,000—why, that is $32,42 a day pay.

F.—You are quite right, my son; you will make a good scholar.

A STREAK AHEAD OF NOAH.

A dispute once arose between two Scotchmen, named Campbell and M'Lean, upon the *antiquity of their families.* The latter would not allow that the Campbells had any right to rank with the M'Leans in antiquity, who, he insisted, were in existence as a clan since the beginning of the world. Campbell had a little more Biblical knowledge than his antagonist, and asked him if the clan of the M'Leans was before the flood.

"Flood! what flood?" asked M'Lean.

"The flood, you know, that drowned all the world but Noah and his family, and his flock," said Campbell.

"Pooh, on you and your flood," said M'Lean; "my clan was afore the flood."

"I have not read in my Bible," said Campbell, "of the name of M'Lean going into Noah's ark!"

"Noah's ark!" retorted M'Lean, in contempt. "Who ever heard o' a M'Lean that hadn't a boat o' his ain?"

AN "HONEST AGENT."

A few days since, says the Richmond Dispatch, a citizen of Richmond, having occasion to visit Surrey county, met with an old slave in a very destitute condition and almost naked. The negro told him that he had been working for an agent of the Freedmen's Bureau at four dollars *per month and his food. He only* received three dollars per month, and no rations. His former master went with him to the man and asked him if he was an agent of the Bureau. The fellow very insolently replied:

"Is that any of your business?"

The gentleman replied:

"It is sir. The man was once my slave, I have always treated him well, and don't intend that he shall be imposed upon now?"

He then produced the negro's labor contract drawn up in legal form, and made the man pay the negro what was due him—about seventy dollars.

When he returned to Richmond he made complaint of the affair to the authorities, and the agent has since been discharged.

Pretty Cute for a Darkey.—Old Tony, like other negroes, was much pleased with the fancy of riding a "hoss" of his own. Accordingly he scraped together all of his earnings to the amount of fifty dollars, which he paid for a very worthless pony. Many persons told him he was cheated; and it was playfully proposed that he should have the seller before the Freedmen's Bureau. At this Tony looked very solemn, and at length said:

"No, sah, if Mr. A. cheat me, maybe I can cheat him back; but if dem bureaus gits de money, de devil cant 'screw it out of' em."—*Nashville Gazette.*

A negro woman named Sarah Miller died in Columbus, Ga., on the 5th of August, who was five feet eight inches in height, and measured five feet around her chest. Her weight was seven hundred and ninety-eight pounds, and it required the muscular efforts of six strong men to remove the body from the upper tenement in which she died to the hallway where she was to be coffined.

METEORS EXPECTED.

On the 13th or 14th of November next, says *Professor Newton, of Yale College,* a prodigious flight of meteors, the most imposing of its kind, will make its appearance, probably for the last time in this century. Only thirteen of these meteoric showers are recorded between the years 903 and 1833. That of the latter year was a sublime spectacle. Arago computes that not less than two hundred and forty thousand meteors were visible above the horizon of Boston on the morning of the 13th of November, 1833. This display was seen all over North America. A similar display was seen by Humbolt at Cumana, South America, in 1799.

An old fashioned squirrel hunt took place at Akron, N. J., last week, by a party of gentleman from Buffalo. The *game* principally consisted of squirrels, with some rabbits and 'coons, and when piled might be measured by the bushel. Many of the hunters counted from two hundred to two hundred and fifty, and one veteran soldier of the late war ran up a score of three hundred. Four thousand one hundred and ninety squirrels were bagged in a single day by the entire party.

A Law Joke.—A lawyer of fluid tendency was discussing some nice point of law, and getting out of patience at the inability of the court to take his own view of it, said the intellect of the court was so dark a flash of lightning could not penetrate it. The Judge being a newcomer, and not knowing the peculiarties and failing of the man, imposed a severe punishment on him for contempt of court. Some of the lawyer's friends stated the case to his honor, and the punishment was remitted on the condition that he should publicly apologize to the court. He was accordingly brought up the next morning, and made amends by saying: "I regret very much that I said, in the heat of the moment, that the intellect of the court was so dark lightning could not penetrate it. I guess it could; *it's a very penetrating thing.*"

ADDRESS OF THE DEMOCRATIC STATE COMMITTEE.

DEMOCRATIC STATE COM. ROOMS,
PHILADELPHIA, Oct. 17, 1866.

To the Democracy of Pennsylvania:

In a poll of more than six hundred thousand votes, you are beaten less than three per cent. on the whole. A change of one and a half per cent. would have given you the State. You have reduced the majority of your opponents, and polled nearly twenty thousand more votes than ever before. Upon the aggregate of the Congressional vote, still greater force is shown.

In this contest you have proven your devotion to principle, have demonstrated the strength of your organization, and yield to your enemy a dearly-bought victory.

You are "defeated, but not dismayed." Buoyancy and hope everywhere pervade your ranks, whilst chagrin and dismay mark the visages of your opponents.

They judge you rightly; for, in the light of this exhibition of your stern devotion to the doctrines of the Constitution, to the perpetuity of your Union, and to the supremacy of your race, they read their coming defeat.

For the first time since the final disbandment of our armies, you have met the forces of the Republican organization. They fought for the life of their party; they concentrated against you the influence of almost every manufacturer, corporation and bank; they had at their command a large preponderance of the public press of the State, speakers without number, all the money that a dynasty of contractors—to whom the public treasury has been a mine of wealth—could furnish; memories of the war still fresh enough to be the means of exciting hatred; laws enacted with a view to their own political ascendancy; a well-disciplined organization, and all the advantages that the possession of municipal and State power could bring them; and yet, unaided and self-dependent, you have combatted this powerful combination, and almost carried the State.

All honor and praise to the Democracy of the Keystone, for this most gallant fight.

A band of men, who, in 1863, can poll for their candidate 254,000 votes; in 1864, 276,000 votes; and in 1866, 295,000 votes; who plant themselves upon principles that are eternal; who *will not* despair of the Republic, and who possess the physical power and the moral courage to maintain their opinions and preserve their liberties, must eventually be the ruling power in the State.

Implicit belief in the justice and truth of the great doctrines that lie at the base of our form of government, aversion to its centralization, and confidence in the efficiency of the Constitution for the preservation of your liberties, have ever distinguished you. These are the magnets around which you have gathered in many a hard-fought contest, and to them you will be true as the needle to the pole. Opinions of individuals may change; but, in the future as in the past, come victory or defeat, as a party you will ever be found rallying to these principles as the leading tenets of your political faith.

Hope, confidence and courage should be gathered from the remembrance, that two-thirds of the white freemen of the Republic think as you do upon these subjects, and that, on every field on which they are staked, your united action will overcome all opposing forces.

We ask you to persevere in the work so auspiciously begun. From this hour, let us determine to go forward. Let us have done with spasmodic efforts, and move onward with unflagging energy.

The thorough and effectual dissemination of truth, is the proper means to your eventual triumph; and organization, discipline, systematic effort and individual exertion, are the avenues that lead to victory. Will you pursue them? United, disciplined and determined, you will be irresistible.

By order of the Democratic State Committee, WILLIAM A. WALLACE,
Chairman.

WHAT WAS DECIDED.

The Harrisburg *Telegraph* and Forney's *Press* are the authorized organs of the newly-elected Governor of Pennsylvania. What they say of the result of the recent election may be taken as law and gospel. The *Telegraph* declares editorially:

> "The 'nigger' will be no longer the issue between parties. The adoption of the Constitutional Amendment by three-fourths of the States, and the admission of Southern Representatives to the 40th Congress, has been insured by the late election. The extension of the right of franchise to the blacks will quietly follow—and the next question will be: Shall the right of franchise be extended to women?"

We warned the people whenever we addressed them that negro suffrage was what the Radicals wanted. During the canvass it was denied by them—they said no such issue was before the people. But as soon as the election is over they come out boldly and avow it. If ever the Constitutional Amendment is adopted, they will insist that "the right of franchise to the blacks shall follow." The *Press* already proclaims that when Congress meets, suffrage will be conferred upon the negroes in the District of Columbia. The Radicals fought the battle on a stupendous lie.

NOBODY FRIGHTENED.

Forney's threats of revolution and bloodshed do not seem to have had much effect upon Gov. Swann, of Maryland, if we may judge of what transpired at the preliminary hearing before him on Monday last. He gave those present to understand that he claimed the right by law to investigate the conduct of the Police Commissioners of Baltimore, and if he found them derelict in duty or transcending their powers, he would take measures to compel them to obey the law, or fill their places with better men. So that Forney's threats of violence are nothing more or less than the quacking of a crippled duck in the last hours of its existence. They have no terror for the Governor of our sister Commonwealth, and will frighten nobody acquainted with the cowardly miscreant who utters them.

THE PUNISHMENT OF TRAITORS.

Whilst President Johnson is in the main performing his high and responsible duties to the satisfaction of every Conservative and true Union man in the country, and is receiving the commendation and support of a large majority of the American people, there is yet one thing which many are of the opinion he ought to do. The penalties incurred by the leading traitors of the South are still hanging over them, and may be enforced by the proper authorities at any time. These operate as restraints upon the Southern traitors and guarantee their good behavior. But the "traitors at the other end of the line"—such men as John W. Forney, Wendell Phillips, Wm. D. Kelley, and Benjamin F. Butler—being under no bonds to preserve true faith and allegiance to the Government, are doing their best to get up another civil war, and again involve the country in bloodshed and devastation. It is the opinion of many of the President's supporters—especially those who voted for Mr. Lincoln and sustained his administration—that *he ought to arrest the traitors and disunionists above named*, and their leading aiders and abettors all over the country. The persons who take this view of the case do not advocate the hanging of these miscreants, however richly they may deserve the gallows; but they maintain that they ought to be shut up in Fort Lafayette or sent to the Dry Tortugas, where they could no longer disturb the peace of the country. They argue that so long as these vindictive, corrupt, plundering agitators and traitors are permitted to spout their incendiary and treasonable language, so long will the country be kept in an unsettled condition, and the restoration of the Union be a moral impossibility.

We are not much inclined to favor the exercise of doubtful powers by executive officers, but it must be admitted that a step of this kind on the part of President Johnson would have in it at least the merit of an act of retributive justice. It would only be giving these scoundrels a taste of the specific for "disloyalty" that they were so free in administering to Democrats during Lincoln's Presidency, for venturing to question the wisdom of some of the measures of his administration. Any argument that could be made in favor of the incarceration of a Democrat in Fort Lafayette, or his transportation to the Dry Tortugas, at any period of Lincoln's administration, would make in favor of the immediate arrest and close imprisonment of such cowardly ruffians as Forney, Butler, Phillips and their coadjutors, who are straining every nerve to convulse the country with a civil war which would be vastly more destructive, and in every respect infinitely worse, than the one from which we have just emerged.

The ravings and threats of Beast Butler and John W. Forney against the President have been read by everybody. No frantic rebel ever denounced and threatened President Lincoln as fiercely during the hottest period of the late war as these vulgar and envenomed scoundrels now denounce and threaten President Johnson. Wendell Phillips has lately added his denunciations and threats to theirs. In his late address on the "Peril of the Hour," at Boston, after reiterating Butler's demand for the impeachment and removal of the President, and denouncing Gen. Grant, who, he said, "occupied the most humiliating position of any man on this continent," Phillips proceeded to declare that "his theory was that *there is no President*. He is a deserter. The legislative power is the only power left. Our James II. has abdicated and Parliament rules the nation. *He wanted Congress to commence its next session as a perpetual one. He would have the next Congress enact that they should re-assemble in March, 1867, and be themselves the Government.*"

Upon what ground would those who defended the arbitrary arrest, by Abraham Lincoln, of men who questioned the wisdom of his acts as President, condemn Andrew Johnson for arresting a man who publicly declares that "there is no President," and calls upon Congress to ignore the Executive and usurp his functions. If ever there was cause for the arrest of persons for the use of "treasonable language" there is cause for it now. So says the Lancaster *Intelligencer*, and so say we.

How the Democracy are Cheated in Congressional Representation.—The iniquitous apportionment of Congressional districts in Pennsylvania (so apportioned to defraud the Democracy) is most clearly apparent from the poll of votes at the late election.

For the *six* elected Democratic Congressmen there were polled no less than 291,000 votes, which fact shows that it requires the enormous number of *forty-eight thousand five hundred* (48,500) votes to elect a Democratic member of Congress.

The *eighteen* elected Rumpers polled about 11,300 more than the Democrats—a total of 302,300 votes, which fact shows that it requires only *sixteen thousand seven hundred* (16,700) votes to elect a Disunion Rumper.

It is not at all wonderful that the Democracy should be overwhelmed when they are required to cast nearly *three times* more than the number of votes required to elect a candidate of the Disunion stripe.

☞ The Cincinnati *Enquirer* says that there are two million supporters of the President's policy in the North and one and a half million at the South—making three and one-half million (3,500,000) in all. The Northern supporters, through iniquitous apportionments, &c., have but *sixty* (60) representatives in Congress, and the Southern portion have *none*. Of Radicals, opposed to the President, there are two and one-half million, (2,500,000,) represented in Congress by *two hundred and sixteen* (216) members. And yet this is called a representative Government (!)

☞ Governor Fenton, of New York, has issued his proclamation calling upon the people of that State to observe Thursday, the 29th of November, as a day of thanksgiving. The day is the same as that appointed by President Johnson.

☞ The official vote for Governor in all the counties has not yet been published. One county, Pike, remains unreported, excepting as to the *majority* it gave for Clymer. The footings-up show Geary's majority in the State to be 17,185. We shall probably be able to give the full vote of all the counties in our next issue.

THE BALTIMORE TROUBLES.

Because the Police Commissioners of Baltimore, out of mere party feeling, so act as to deprive four-fifths of the legal voters of that city of the privilege of the elective franchise, and those thus outraged appeal to the Governor for redress, the Radicals there, with such howlers as Forney and Butler outside of the State, threaten resistance even to blood if the Governor undertakes to right the wrong complained of. The despicable demagogue Forney invokes the Radical Governors to march to Baltimore, and goes so far as to promise for Pennsylvania a willingness to engage in such high-handed and rebellious work. He says the "old Keystone will be ready." Yes, it will be ready, should the Radical leaders unfortunately be able to create a bloody struggle in the streets of the "Monumental City"—but it will be to maintain law and order, and uphold the hands of the State Executive against the assaults of Radical rebels. Such an issue is always to be deprecated, but if it must come, let its heaviest consequences fall upon its guilty instigators.

—The latest reports are of a more quiet character. The Radicals are beginning to feel that they may easily go to far in their bluster, and hence are lowering their tone. We subjoin such information as may be of interest to our readers.

Parties in Baltimore having started organizations with a view to preventing a proper execution of the laws, Gov. Swann issued the following timely and "plucky" proclamation in reference thereto:

Proclamation of Gov. Swann.

STATE OF MARYLAND,
EXECUTIVE DEPARTMENT.

Whereas, It has come to the knowledge of the Executive that military and other combinations are now forming in the City of Baltimore for the purpose of obstructing and resisting the execution of the laws of the State, and,

Whereas, There is reason to believe that similar combinations are attempted to be organized in other States, with the intention of invading the soil of the State of Maryland, to deprive her citizens of their just rights under the law, and to control the people of the State by violence and intimidation,

Now, therefore, I, Thomas Swann, Governor of the State of Maryland, do, by this, my proclamation, solemnly warn the leaders of all such illegal combinations against the peace and dignity of the State that, in the event of riot and bloodshed growing out of these revolutionary proceedings, they will be held to the strictest accountability, and the power of the State will be exhausted to bring them to prompt and merited punishment.

Given under my hand and the great seal of the State of Maryland, this the 22d day of October, A. D. 1866.

[Signed.] THOMAS SWANN.
By the Governor.
JOHN W. CARTER, Secretary of State.

From Washington.

WASHINGTON, October 23.—Postmaster-General Randall having returned, a full meeting of the Cabinet was held today. An evening paper states that the Maryland difficulties were under consideration. Gov. Swann arrived from Annapolis this morning, and had an interview with the President before and after the Cabinet meeting. General Grant has also held protracted conferences with the President during the day. Beyond these facts but little is known, but the belief is well founded that Governor Swann will remain firm in the course he has taken. Republicans from Baltimore declare that the whole Radical scheme for riot and bloodshed is gotten up to influence the Northern and Western elections, and is in the hands of non-residents, such as Wooley, of Indiana; Denison, of Pennsylvania; and Forney, the chief conspirator.

Resistance to the Law.

It should be distinctly borne in mind that the threatened trouble in MARYLAND is due to a determination on the part of the Radicals of that State to resist lawful authority. Here is the extract from the Constitution of MARYLAND which bears upon the case:

> "For official misconduct, any of said commissioners may be removed by a concurrent vote of the two Houses of the General Assembly, *or by the Governor during the recess thereof.*"

Now, the Police Commissioners of Baltimore say they will resist the authority of the Governor should he attempt to remove them; the Mayor of that city asserts that he will help them in their rebellion; while FORNEY calls upon the Radicals of other States to arm and invade MARYLAND to give aid and comfort to the would-be rebels. Governor SWANN has the law and the Constitution on his side, and, if the emergency comes, will be sustained by the whole power of the Government, and by all law-abiding people. Civil war in the interest of law-breaking is the one thing the country will be unanimous against.—*N. Y. World, Dem.*

A Radical Paper on the Situation of Maryland.

The Chicago *Republican* says of Forney's late letter to the Philadelphia *Press*, in which he tells the North to prepare to invade Maryland:

> "We not only deprecate, but we heartily and unqualifiedly denounce, as dangerous to the country and fatal to the Republican party, the language which Colonel Forney writes from Baltimore."

The reply of the *Republican* to this open invitation of Forney's for the inauguration of another civil war is as follows:

> "Pennsylvania and the North will reply that this Maryland quarrel must be adjusted according to law and without any rebellion on the part of Union men. If Governor Swann has the legal right to remove the Commissioners, let him do so. If he does so from corrupt reasons, impeach him. If the President has the lawful power, as he certainly has, to order troops into Maryland to sustain Governor Swann in any official acts which Governor Swann is permitted by the law and the courts to do, let no loyal men of Maryland fire on the Federal flag, for they cease to be Union men when they do so."

The Maryland Trouble.

The N. Y. *Evening Post*, (Radical,) with truthful and patriotic good sense speaks about the Maryland mischief. It warns the Radicals that if they resist Governor Swann by force of arms, the law will be against them, and public sentiment must condemn them. It says:

> They [the Commissioners] argue upon this that the power of removal "gives no power to the Governor to try for official misconduct, or to pronounce them guilty." This seems to us manifestly absurd; if it were the true meaning, then a majority of the Legislature would have the right by the Constitution to keep the Commissioners in office, even though they had been judicially tried and found guilty of official misconduct. It is of no use to argue that the constitution intends that. It seems to us clear that the Police Commissioners are amenable to the Governor during the recess of the Legislature; and as we have no doubt they have acted properly and lawfully, we are sorry to see them put themselves in the wrong. Nor can we think well of the attitude of the Republicans in Baltimore. They have taken for granted that the Governor will do wrong—this they have no right to assume; then they have publicly announced that they will resist the Governor's acts, and the Mayor of Baltimore, we read, has now quite a formidable army at his back. Is civil war so welcome and so profitable that it should thus be invited?

The *Post* further concedes that Governor Swann appears throughout this unfortunate affair to have acted with "moderation and good sense."

The People Want Repose.

The calm and unbiassed judgment of all sensible men is against these infamous [Baltimore] revolutionists, and unless they pause in their wicked designs they will meet with a storm of popular condemnation that they little dreamed of when they inaugurated their lawless and treasonable programme. The people want repose and quiet, and they will not permit the public peace to be disturbed by a miserable set of destructives, who would rather see the country ruined than relinquish their waning power. Let them be advised in season, and remember that the whirlwind they may reap will be a harvest of their own sowing.—*Age.*

Indictments Contemplated.

NEW YORK, Oct. 24.—The *Herald's* Baltimore special dispatch says that attempts are being made to secure indictments against John W. Forney, the editors of the Baltimore *American*, and the Police Commissioners, for attempts to incite riot and insurrection. Witnesses are already summoned and the Grand Jury has not yet acted. There is no change in the situation. Abundant evidence will be furnished on Friday to justify the government in every action it may take. There is no truth in the statement that returned rebels have been registered.

Important from Washington.

BALTIMORE, Oct. 24.—The special correspondent of the Baltimore *Sun* says: The proclamation of Governor Swann is fully approved by the President, and should it be necessary for him to call for aid in maintaining peace and order, and enforcing the legal authority, it will be promptly furnished.

RADICAL MURDERS IN HAGERSTOWN.

[Correspondence of the Baltimore Gazette.]

HAGERSTOWN, Oct. 20.

Our town is at present the scene of great excitement. The Radicals are now holding a large mass meeting, having gathered together all the roughs from our own and also from the adjoining counties of Pennsylvania, with the full determination of cleaning out the Conservatives in this portion of the State. Two policemen, Mr. Charles Gaul and Robert Sands, in attempting to quell a disturbance, were set upon by the mob and driven with stones some distance, when Gaul turned and fired, checking the crowd for a short time, but immediately upon the engine bell being sounded, a preconcerted signal for them to rush to arms, the streets were soon filled with armed men rushing towards the scene.

Gaul and Sands having taken refuge in a saloon kept by a Conservative of this place, a returned United States soldier, and a man of sterling qualities, the house was soon besieged by the mob, who immediately opened fire, whereupon policeman Gaul fired from the window of the second story in order to check the mob, so that the few persons from the inside could make their escape, and having exposed himself too much, was shot through the head by a minnie ball, and fell from the window to the pavement. The mob immediately rushed into the house in a wild scene of confusion, tearing everything within to pieces. Policeman Sands in attempting to make his escape from the house, was stabbed in the right lung, and, after falling, was beaten terribly by the mob. He is still living, but his wound is pronounced fatal. The mob then cut down the Johnson pole that stood near the saloon, with the stars and stripes floating from it, the bodies of the two policemen still lying on the pavement, unheeded by the mob, the one dead, with his brains oozing out, and the other in a dying condition, crying for help. Several of the mob were wounded, but I believe slightly, save Joseph Renner, who was shot through the body, and it is supposed his wound will prove fatal.

The two policemen, Gaul and Sands, served in the United States army with great distinction, and were honorably discharged at the expiration of the war.

MURDEROUS ASSAULT AT WESTMINSTER.

On Saturday afternoon a Conservative mass meeting was held at Westminster, on which occasion Colonel William P. Maulsby, the Conservative Congressional candidate, and others, spoke. Before the close of the meeting a party of Conservatives from Manchester left with a view to reach home before night, and as they drove through the town cheered for Shaw, the Democratic editor who was so ruthlessly murdered by ruffians some two or three years ago. On the way they stopped in front of a hotel, when a man named Henry Bell, one of those tried for the murder of Shaw, and acquitted by a partisan jury, stepped from the hotel, drew a revolver and began to fire on them. Four of the Manchester party were wounded, one it is supposed mortally. Bell was arrested and committed to jail, but the excitement was so great that apprehensions were felt that the jail would be broken into by the people and the accused taken out and lynched.—More moderate counsels, however, prevailed, and at last advices the excitement had very much abated. Bell is said to be a desperate character, and the attack by him on Saturday was, so far as can be learned, wholly unprovoked.—*Baltimore Gazette.*

THE STATUS OF MR. STANTON.

The Washington correspondent of the New York *Herald* says: The actual facts regarding the rumored resignation of Secretary Stanton are about as follows:—He is now engaged in making out his report and as soon as it is finished he will undoubtedly retire. His resignation has been precipitated by the discovery lately made that Mr. Stanton has filled nearly all the vacancies in the regular army without the knowledge or assent of Mr. Johnson. He has been for some time making out the commissions and forwarding them to the appointees, with orders to them to report to General Grant for duty. General Grant supposing them, as appeared from the face of their papers, duly appointed by the President, has assigned them to duty and they are now at service without the knowledge of the President. On learning this fact, the President, very angry, sent for Mr. Stanton, and demanded an explanation. The result was the retirement of Mr. Stanton as soon as he could make out his report, on which he is now engaged.

The belief gains ground that General Sherman is to succeed Mr. Stanton *pro tem.* He cannot of course hold the office and that of Lieutenant General at the same time; but at the request of General Grant, who desires the hearty co-operation of the war office in the work of reorganizing the army, Sherman will act as Secretary of War.

☞ Wendell Phillips, in a speech made a few days ago, denounced Gen. Grant as a "traitor." He charged the hero of Vicksburg and Richmond with the responsibility for the New Orleans riot, and declared that "the most humiliating position on this continent was occupied by Gen. Grant." Such is the respect entertained by the Radicals for the Lieutenant General of the United States. Comment is unnecessary.

☞ The Shirleysburg *Herald* says the Rads of Huntingdon county marched every pauper in the poor house up to the polls on election day with a Disunion ticket in his hand. The same paper says that during the canvass the "old sinner who presides at the poor house and an ex-associate judge" canvassed the whole township in the poor house buggy, and that the poor house wagon, poor house horses and poor house farmer were nightly used to draw free loads of politicians to Geary meetings.

☞ Baltimore is quiet.

TOWN AND COUNTY AFFAIRS.

DEATH OF JACOB BUSHEY, ESQ.—It becomes our painful duty to announce the death of our esteemed friend and fellow citizen, Jacob Bushey, Esq., which took place on Friday morning, after a two weeks' illness of typhoid fever. Mr. Bushey was a native of this county, and resided during most of his life-time at East Berlin. In 1857 he was elected to the office of Prothonotary, and re-elected in 1862, serving both terms with credit to himself and to the satisfaction of the people. He was one of the most kind-hearted of men, a good neighbor, a warm friend—devoted to his family and all around him. He departs from earth tearfully mourned by those near and dear to him, and regretted by all who enjoyed his acquaintance. His remains were interred at East Berlin yesterday, the whole community manifesting their sorrow over the death of one so long and so highly respected among them. Peace to his ashes!

GERMAN REFORMED SYNOD.—The Eastern Synod of the German Reformed Church in the United States assembled in Trinity Church at York on Wednesday week. Over one hundred delegates, clerical and lay, were present. Rev. Mr. Foulk, of Baltimore, was chosen President. Among the most prominent and able divines in attendance were Rev. Drs. Jno. W. Nevin, Schaff, Gerhart, Zacharias, Bomberger and Sneck. The leading topic before the Synod was the Revised Liturgy, the discussion of which occupied several days and displayed great research and ability. By a vote of 54 to 14, the Liturgy was referred to the General Synod, and its use authorized wherever desired until the subject shall be definitely disposed of. The interests of the College at Lancaster were discussed, and measures inaugurated for an additional endowment. The Synod adjourned on Thursday evening last.

—Rev. J. O. Miller's new Church was dedicated yesterday week, Rev. Dr. Zacharias preaching the sermon. Upwards of $7000 were contributed on the occasion, making enough, with what had been previously subscribed, to pay for the erection of the edifice, and leave only some $4000 debt on the ground. The entire cost was $14,000 for the lot, and $37,000 for the building, making a total of $51,000.

The church is strikingly beautiful—large, comfortable, well arranged and well lighted—a credit to the skill and taste of the architect, Mr. Haviland, and a monument to the energy and perseverance of Rev. J. O. Miller, who, amidst the most trying discouragements, and persecutions even, never flagged in his determination to build just such a church as now adorns the very centre of the good and ancient borough of York. He, and those who so nobly stood by him, may well be proud of the accomplishment of so grand a work.

REVENUE ASSESSOR.—Gen. Coffroth has entered upon his duties as Revenue Assessor for this district, with his office at Somerset.

Our neighbor Harper indulges in a grumble or two on going out, evidently disappointed in not having been granted "just one year more."

He has nobody to blame but himself. Had he adhered to the whole Union, with President Johnson, and not ran off after all the mad follies of Thaddeus Stevens and company, he might be enjoying his good fat office yet. "Children that won't listen must suffer."

☞ H. B. Boyd succeeds I. G. Tyson in the long and well-established Photographic Gallery, "The Excelsior," opposite the Gettysburg National Bank, in York street. Mr. Boyd is thoroughly skilled in the art, and has too much reputation to let an indifferent picture go out. All who patronize him may rely upon getting the very best of work, and at prices which must satisfy as well as the pictures. The character of the "Excelsior" will not suffer in his hands, whilst no effort will be spared to keep in the front rank of improvement in these progressive times. 1t

☞ Duphorn & Hoffman, northwest corner of the Diamond, have a splendid stock of new Goods, which they are selling rapidly, because cheaply. By asking only small profits, they will of course sell so many more goods—thus benefitting the public and yet making a living for themselves. The goods they display, they feel certain, will please all who may examine them—and so will the prices. The matter can be tested by calling. 1t

BIG CROP.—We are informed that Mr. Franklin C. Rice, of Butler township, during the past season, grew 151 bushels of Buckwheat from 2 bushels of seed. This is certainly a profitable yield—profitable because of the large proportion of product to investment, because of the fair price which the buckwheat will bring, and because its growth is *not* hard on the land.

☞ We are indebted to J. W. Lott, Esq., of Cumberland township, for a lot of very large Turnips—an acceptable present, and for which he has our thanks.

☞ Jacob Eppelman, Esq., has been appointed Postmaster at Centre Mills, in this county, in place of Edward Staley, removed. A first-rate appointment.

☞ Hon. C. R. Coburn has resigned his position as State Superintendent of Common Schools, and Prof. J. P. Wickersham has been appointed in his place.

☞ We learn that Rev. Mr. Woodburn, late of the U. P. Church, has severed his connection with that denomination, and was received by the Presbytery of Carlisle at its last meeting in Carlisle.

☞ The annual meeting of the Teachers' Institute, at Littlestown, has been postponed until Wednesday, Thursday and Friday, the 21st, 22d and 23d of November.

☞ Some thirty orphans, to be placed in the National Homestead here, have already arrived.

☞ Mr. Isaac G. Tyson has sold his residence, on York street, for $4,000 cash.

☞ God bless the old Democratic party! With all the contumely and abuse which has been showered upon it, it comes out of the contest, worsted for the time, but with its colors flying, its honor untarnished, its numbers increased, and its courage higher than ever. A party that can stand where it has stood for six years past, is indestructible. It is written in the book of destiny that its future will be as glorious as its past.

A REQUEST.—Our current expenses are heavy, and must be met with the cash. To enable us to do this at all times, it is absolutely necessary that our patrons pay promptly. Many, no doubt, hardly ever give themselves a thought about "the printer's" needs, and when they do, quickly dismiss it with the idea that "he can get along anyhow." But this is all wrong. He cannot in reason be expected to be able to pay the present high prices for paper, labor, &c., without receiving prompt pay for his work. This being so self-evident, we hope that ALL who owe us will not delay in making settlements, in order that we may be supplied with the means to "square up" a number of bills which accumulated on our hands during the late campaign, from want of time to attend to financial affairs. If the money on our books were in our pockets, we could do this at once, and get along without "dunning" for some time to come. Let all who owe for subscription, job work, or advertising, respond without delay.

Such as intend paying for the COMPILER in wood, we have to urge that they bring it soon—not after everybody else is supplied. We need it now, as well as other people.

To our prompt-paying patrons we again return thanks, and trust that before another month passes all will place themselves in the same class. They can do it by simply doing justice to "the printer."

OFFICIAL VOTE FOR CONGRESS.

The Return Judges of the several counties of the District met at Chambersburg on Tuesday, the 16th, and cast up the vote for Congress, which is as follows:

	Koontz (R.)	Sharpe (D.)
Adams,	2910	3134
Bedford,	2573	2850
Franklin,	4273	4162
Fulton,	756	1073
Somerset,	3079	1747
Total,	13587	12966

Majority for Koontz, 621.

☞ Lieutenant-General Sherman is in Washington, and, accompanied by General Grant, had a protracted interview with President Johnson on Friday.

ALL SORTS.

☞ An Indiana paper tells of the recent killing of a rattlesnake with one hundred and ten rattles.

☞ A man up the river got married, went on his tour, and cut his throat the second day out. He would have saved money by doing it before he started.

☞ "Pour oil upon the troubled waters," cry the Radicals. Certainly, but not the oil of vitriol.

☞ A bold burglar in Milwaukie proved to be a handsome girl of nineteen. She was married to her "pal" after her sentence, and the honeymoon was passed in prison.

☞ John Cornwell, a citizen of Bullitt county, Ohio, was robbed and murdered, two miles from his residence, by a negro man and woman.

☞ Mrs. Cunningham, notorious in connection with the Burdell murder, a few years since, was lost on the steamer Evening Star.

☞ The Supreme Court of Maine has mulcted certain parties engaged in the destruction of the office of the Bangor *Democrat*, in August, 1861, in the sum of nine hundred and sixteen dollars.

☞ In Detroit a woman recently placed a sealed tin can of tomatoes upon the stove, and was killed by the explosion.

☞ There is a negro in Philadelphia, whose feet measure twenty-nine inches. We think the Radicals ought to secure them for a *party platform*.

☞ Authentic intelligence has been received, going to show that the French forces to be withdrawn from Mexico are to be replaced by volunteers raised and equipped on French soil, and which are to be known as "The Army of Mexico."

☞ A young man out West, who married a woman twice his age, subsequently ascertained that she had once been his wet nurse.

☞ It is stated that lavender will prevent mould on books, ink, leather, and similar articles, and that several drops of it placed in a book-case will protect all the contents.

☞ A recent exhumation has developed the fact that the body of Roger Williams, the founder of Rhode Island, has been absorbed by an apple tree.

☞ Last week a colored man named Bradley, belonging to Boston, was admitted to practice in the courts of Maine. So we go in these Radical times.

☞ The returns from North Carolina indicate that the vote for Worth, the Conservative candidate for Governor, was almost unanimous. He is opposed to the adoption of the constitutional amendments.

A full attendance is requested. All who expect to be examined next year with a view to teaching will find it to their interest to attend. These meetings are designed for the instruction, improvement and advancement of Teachers. Hence it is highly important that as teachers we keep up our organization. The exercises will consist of Addresses, Lectures, Class-Drills and Discussions. Addresses will be delivered by Prof. M. L. Stoever, of Penn'a. College, P. D. W. Hankey, Esq., and others. Reduction in Price

OF THE AMERICAN WATCHES, MADE AT WALTHAM, MASS.—In consequence of the recent great improvements in our facilities for manufacturing we have reduced our prices to as low a point as they can be placed

WITH GOLD AT PAR,

so that no one need hesitate to buy a watch now from the expectation that it will be cheaper at some future time. The test of ten years and the manufacture and sale of

MORE THAN 200,000 WATCHES,

have given our productions the very highest rank among time keepers. Commencing with the determination to make only thoroughly excellent watches, our business has steadily increased as the public became acquainted with their value, until for months together, we have been unable to supply the demand. We have repeatedly enlarged our factory buildings until they now cover over three acres of ground, and give accommodation to more than eight hundred workmen.

We are fully justified in saying that we now make MORE THAN ONE-HALF OF ALL THE WATCHES SOLD IN THE UNITED STATES. The different grades are distinguished by the following trade-marks on the plate:

1. "American Watch Co." Waltham, Mass.
2. "Appleton, Tracey & Co." Waltham, Mass.
3. "P. S. Bartlett," Waltham, Mass.
4. "Wm. Ellery."
5. OUR LADIES' WATCH of first quality is "Appleton, Tracey & Co.," Waltham, Mass.
6. Our next quality of Ladies' Watch is named "P. S. Bartlett," Waltham, Mass. These watches are furnished in a great variety of sizes and styles of cases.

The American Watch Co. of Waltham, Mass., authorize us to state that without distinction of trade-marks or price, ALL THE PRODUCTS OF THEIR FACTORY ARE FULLY WARRANTED, to be the best time-keepers of their class ever made in this or any other country. Buyers should remember that unlike the guarantee of a foreign maker who can never be reached, this guarantee is good at all times against the Company or their agents, and that if after the most thorough trial, any watch should prove defective in any particular, it may always be exchanged for another. As the American Watches made at Waltham, are for sale generally throughout the country, we do not solicit orders for single watches.

CAUTION.—The public are cautioned to buy only of respectable dealers. All persons selling counterfeits will be prosecuted.

A Humbug.

HOW OFTEN WE HEAR THIS EXPRESSION from persons reading advertisements of Patent Medicines, and in nine cases out of ten they may be right. It is over 19 years since I introduced my medicine, the Venetian Liniment, to the public. I had no money to advertise it, so I left it for sale with a few druggists and storekeepers through a small section of the country, many taking it with great reluctance; but I told them to let any one have it, and if it did not do all I stated in my pamphlet, no one need pay for it. In some stores two or three bottles were taken on trial by persons present. I was, by many, thought crazy, and that would be the last they would see of me. But I knew my medicine was no humbug. In about two months I began to receive orders for more Liniment, some calling it my valuable Liniment, who had refused to sign a receipt when I left it at their store. Now my sales are millions of bottles yearly, and all for cash. I warrant it superior to any other medicine for the cure of Croup, Diarrhœa, Dysentery, Colic, Vomiting, Spasms, and Sea sickness, as an internal remedy. It is perfectly innocent to take internally, see oath accompanying each bottle,—and externally for Chronic Rheumatism, Headache, Mumps, Frosted Feet, Bruises, Sprains, Old Sores, Swellings, Sore Throats, &c., &c. Sold by all Druggists. Depot 56 Cortlandt street, New York. [Oct. 1, '66. 7w

Cleanse the Blood.

With corrupt, disordered or vitiated Blood, you are sick all over. It may burst out in Pimples, or Sores, or in some active disease, or it may merely keep you listless, depressed and good for nothing. But you cannot have good health while your blood is impure. AYER'S SARSAPARILLA purges out these impurities and stimulates the organs of life into vigorous action, restoring the health and expelling disease. Hence it rapidly cures a variety of complaints which are caused by impurity of the blood, such as Scrofula, or Kings' Evil, Tumors, Ulcers, Sores, Eruptions, Pimples, Blotches, Boils, St. Anthony's Fire, Rose or Erysipelas, Tetter or Salt Rheum, Scald Head, Ring Worm, Cancer or Cancerous Tumors, Sore Eyes, Female Diseases, such as Retention, Irregularity, Suppression, Whites, Sterility, also Syphilis or Venereal Diseases, Liver Complaints, and Heart Diseases. Try Ayer's Sarsaparilla, and see for yourself the surprising activity with which it cleanses the blood and cures these disorders.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself has become synonymous with imposition and cheat. Still we call this compound "Sarsaparilla," and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. We think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. We can only assure the sick, that we offer them the best alterative which we know how to produce, and we have reason to believe, it is by far the most effectual purifier of the blood yet discovered by any body.

Ayer's Cherry Pectoral is so universally known to surpass every other remedy for the cure of Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease, that it is useless here to recount the evidence of its virtues. The world knows them.

Sewing Machines.

THE GROVER & BAKER.—THE BEST IN USE. These Machines have become so well known that little need be said by way of recommendation. They have taken the first premium at all the late State Fairs, and are universally acknowledged to be the BEST in use by all who have tried them. The "Grover & Baker Stitch" and the "Shuttle Stitch" are points that have been attained by no other Machine. They are the only machines that sew and embroider with perfection. These Machines are peculiarly adapted to Family use. They are almost noiseless, sew directly from the spool without rewinding, and are simple in their construction. They are easy to manage, and can be worked by almost any child. Every family should have one. *They save labor, they save time, and they save money*, and do their work better than it can be done by hand.

The undersigned having been appointed Agent for the above Machines, has established an Agency in Fairfield, Adams county, where he will always have on hand a supply. Persons wishing to buy will please call and examine for themselves.

Three different sizes for grinding Corn in the ear, or shelled—or any other kind of grain. This is a machine that every farmer should have, as a bushel of ground feed is equal to a bushel and a half unground. WILLOUGHBY'S GUM SPRING DRILL,
WITH CROWELL'S GUANO ATTACHMENT.

This is considered one of the best Drills now in use. It will distribute any kind of grain evenly, and sow from one bushel up to three to the acre. The Guano Attachment has given entire satisfaction wherever used. It is so constructed as not to clog in sowing any kind of Phosphates or Bone Meal. Having sold a number of these machines last season, I can fully recommend them to be what they are represented. Persons wishing to buy should make application early as the supply is small and the demand great.

F. F. SMITH'S CAST STEEL PLOUGHS.

First, It is the only Plough yet produced that will invariably scour in any soil.

Second, It is now an established fact that It will last from three to six times longer than any other steel plough in use.

Third, It draws lighter than any other Plough, cutting the same width and depth of furrow.

The different parts of the Plough are cast in moulds, into the exact shape desired for the mould-boards, shares and land-sides, giving the parts most exposed to wear any desired thickness. The shares can be sharpened by any blacksmith. The steel is perfectly malleable and works kindly. Edge tools have been made out of pieces of the plough by blacksmiths all over the country.

DEMAND J. W. BRADLEY'S CELEBRATED PATENT DUPLEX ELLIPTIC (OR DOUBLE SPRING)

SKIRT.

THE WONDERFUL FLEXIBILITY and great COMFORT and PLEASURE to any lady wearing the DUPLEX ELLIPTIC SKIRT will be experienced particularly in all crowded Assemblies, Operas, Carriages, Railroad Cars, Church Pews, Arm Chairs, for Promenade and House Dress, as the Skirt can be folded when in use to occupy a small place as easily and conveniently as a Silk or Muslin Dress, an invaluable quality in crinoline, not found in any Single Spring Skirt.

A lady having enjoyed the PLEASURE, COMFORT, and great CONVENIENCE of wearing the DUPLEX ELLIPTIC STEEL SPRING SKIRT for a single day, will never afterwards willingly dispense with their use. For Children, Misses and Young Ladies they are superior to all others.

They will not bend or break like the Single Spring, but will preserve their perfect and graceful shape when three or four ordinary Skirts will have been thrown aside as useless. The Hoops are covered with double and twisted thread, and the bottom rods are not only double springs, but twice (or double) covered, preventing them from wearing out when dragging down steps, stairs, &c.

The Duplex Elliptic is a great favorite with all ladies and is universally recommended by the Fashion Magazines as the STANDARD SKIRT OF THE FASHIONABLE WORLD.

To enjoy the following inestimable advantages in Crinoline, viz: superior quality, perfect manufacture, stylish shape, & finish, flexibility, durability, comfort and economy, enquire for J. W. Bradley's Duplex Elliptic, or Double Spring Skirt, and be sure you get the genuine article.

CAUTION.—To guard against IMPOSITION be particular to NOTICE the skirts offered as "DUPLEX" have the red ink stamp, viz: "J. W. Bradley's Duplex Elliptic Steel Springs," upon the waistband—none others are genuine. Also Notice that every Hoop will admit a pin being passed through the centre, thus revealing the two (or double) springs braided together therein, which is the secret of their flexibility and strength, and a combination not to be found in any other skirt.

Another Great Cure.

IN THE CITY OF NEW YORK,

Of a highly respectable citizen, well known to the Mercantile community, by

DR. J. H. SCHENCK,

THE GREAT LUNG DOCTOR OF PHILADELPHIA.

Office N. Y. and Galena Lead Co.,
No. 28 Nassau St., N. Y., June 1, '65.

Dr. J. Schenck—Dear Sir:—For over fifteen years I have been troubled with a severe cough, and usually two or three times a year with more or less hemorrhage, which together, for the last few years, has kept me thin in flesh and too weak to do business of any kind without suffering. In August last I had a very severe hemorrhage, and according to the judgment of a good New York physician, it was classed as beyond the reach of medicine, and was advised to be prepared, so far as property matters were concerned, to leave this world at short notice. The physician (and my good friends) said that the first cold I took must prove fatal. Early in January I took a severe cold, and fortunately was occupying rooms at No. 32 BOND STREET, directly over your office. I think about the 16th of January I procured a bottle of your Pulmonic Syrup and commenced taking it freely. My feet and limbs were very much swollen, and all the symptoms of a speedy death seemed to accompany my cold. I sent for my former physician, and stated to him that I was taking your medicines, and after showing them to him, and having tasted them, &c., he replied: "You can take them if you like, they will do you no harm." He said: "You know what I told you last summer, and I say the same now, if you have any business to close up, do not put it off." He said to other friends that he "could see no hope for me," and my friends and relations concluded my time had come. At this time I was taking freely of your medicine, but had not seen you. The doctor called a few times, and found me (much to his surprise, he said,) improving, and he could not understand why. My faith was increasing in your medicines, and I had a wish to have you examine my case, and see what you had to say. When you first came to my room and made the examination, you gave me but little encouragement, but on the contrary, expressed and doubts of my ever being helped out of my then seeming difficulties. The second time that you called, finding me still gaining, you gave me encouragement, saying, "my symptoms were improving; the Pulmonic Syrup, Sea-weed Tonic and Mandrake Pills had acted like a charm." My circulation, my cough, my appetite, all began to improve, and I could walk about my room a little. You visited me nearly every Tuesday, and found me improving, and told me not to go out of my room until the first day of May. I took no cold while under your treatment, my appetite became first-rate, and you told me to eat everything I wished of a nutritious nature, and to exercise about the room as much as possible. I followed your advice, and to the surprise of my old physician and friends, I seem much better than I have been for several years, and breathe better than I ever expected a person could with one lung, the left being completely dried up. I feel very grateful to you, and consider your advice and medicines invaluable.

Yours, truly, T. S. SHELDON.

Dr. Schenck—Dear Sir.—About two years ago I was taken with a very troublesome cough and a pain in my breast; seven or eight months passed away without my doing anything for myself. Then I applied to a physician, who attended me for about three months without rendering me any service. I also obtained the advice and treatment of a physician in one of our hospitals, and also had the advice and treatment of two other physicians, but all to no purpose. During this long space of time I was nearly dead; several times my friends came to see me and witness my exit into the spirit-world. I was confined to my bed two months at one time. My breathing was exceedingly short. I gave up several times all hope of getting better; and as regarded well, that was entirely out of the question. And to think this day I am well and hearty! I was advised by some of my friends to try Dr. Schenck's Medicines. I accordingly bought bottle after bottle, until I reached the ninth; then I found a decided change in my cough for the better. I suffered severely from palpitation of the heart, and two weeks after I commenced taking your medicines this difficulty ceased.

When I first went to Dr. Schenck's office it was with difficulty that I could get up into his reception room, I was so weak and so swelled; my skin was so sallow as though I had the jaundice; I felt dull, heavy and sleepless. Dr. Schenck, after examining me, said both my lungs were effected, and gave me but little hope; but his medicines, in about two weeks, took right hold of me; it seemed to go right through my whole system. The Pulmonic Syrup, Sea-weed Tonic and Mandrake Pills, all took right hold in the right place. The Pills brought away great quantities of bile and slime; the Syrup loosened the matter in my lungs, which came off very free; the Sea-weed Tonic gave me an appetite, and everything seemed to taste good.

To show what great power the medicines have in purifying my system, and to show how bad I was diseased, beside all the bile that passed my bowels, and the great quantities of phlegm and matter I expectorated, I broke out all over in large boils, that would continue to gather and run for about six weeks, and I had at one time over twenty-five boils. I have nothing of the kind now, and feel like another person altogether. I can safely say that I have not enjoyed such health for five years as I do now, and cannot praise you and your medicines enough. May God abundantly bless and preserve you, is the sincere desire of one who has been so wonderfully relieved through your agency; and if any one desires to know with regard to the truthfulness of this report, if they will call upon any of my friends, or upon me, No. 4, Dryden Place, near Thompson street, below Cadwalader, Philadelphia, they will be perfectly satisfied with the validity of the case. Yours, with much respect,

MARY SCHNAIDT.

The above case, as described, is perfectly correct. I know it to be true. Yours.
T. B. MILLER,
Pastor of Hancock M. E. Church.

Dr. Schenck will be professionally at his principal office, No. 15 North Sixth street, corner of Commerce, Philadelphia, every Saturday, from 9 A. M. until 4 P. RAW BONE PHOSPHATE, containing 53 per cent. of Phosphate of Lime, and 3.05 per cent. Ammonia.

It should be borne in mind that the Phosphate of Lime in this article being obtained exclusively from RAW BONES and a TRUE BIRD GUANO, there is NO PORTION of it INOPERATIVE, as in the case of SUPER PHOSPHATES made from MINERAL GUANOS—but being entirely SOLUBLE in the SOIL, continues to IMPART its FERTILIZING qualities to the CROPS for YEARS.

The REMARKABLE SUCCESS which has attended its use for years past, is a sufficient, GUARANTY to induce those who have not tried it to do so.

The GRAIN CROP where this FERTILIZER has been applied is supposed to have been INCREASED from 25 to 50 per cent. by its use, while for TOBACCO and GRASS LANDS its success has been EQUALLY DECIDED.

Soluble Pacific Guano.

200 LBS. SOLUBLE PACIFIC GUANO contains 70 lbs. *animal matter*, yielding 7 to 8 lbs. *ammonia*.

Also 80 to 90 lbs. *earthy bone Phosphate of lime*, 30 lbs. of which are *soluble phosphate*.

It combines all the advantages of the *best brands* of Super Phosphate, with those of Peruvian Guano.

By reason of its greater *concentration*, we recommend 20 per ct. less by weight to be used per acre, than of any fertilizer costing the same per ton; and no more per acre than of those selling at 20 per ct. more per ton.—Hence *its economy*.

This guano weighs 65 lbs. per bushel, hence in applying it farmers must be governed by weight and not by bulk, for it is much lighter than the Super Phosphates. *Every cargo duly inspected.*

71 *South Street, Baltimore.*

"Flour of Bone."

WE will give a money guarantee of the *purity* of this article. It is pure *unsteamed, unburnt bone*, reduced to the *fineness of flour*, which adds 100 per ct. to its value. It is as *quick* and *active* as acid *dissolved bone*, hence its value is vastly greater, because it contains neither acid nor water, which necessarily add weight, and reduce the quantity of valuable elements. We recommend 250 lbs. to be used in place of 300 lbs. Super Phosphate or dissolved bone.

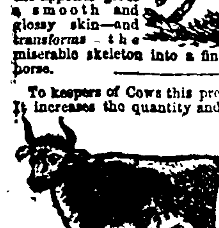
FOUTZ'S CELEBRATED Horse and Cattle Powders.

This preparation, long and favorably known, will thoroughly reinvigorate broken-down and low-spirited horses, by strengthening and cleansing the stomach and intestines.

It is a sure preventive of all diseases incident to this animal, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEAVES, COUGHS, DISTEMPER, FEVERS, FOUNDER, LOSS OF APPETITE AND VITAL ENERGY, &c. Its use improves the wind, increases the appetite—gives a smooth and glossy skin—and transforms the miserable skeleton into a fine-looking and spirited horse.

To keepers of Cows this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent. and make the butter firm and sweet. In fattening cattle, it gives them an appetite, loosens their hide, and makes them thrive much faster.



In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

THE PERUVIAN SYRUP

IS A PROTECTED SOLUTION OF THE

Protoxide of Iron,

a new discovery in medicine which STRIKES AT THE ROOT OF DISEASE, by supplying the Blood with its VITAL PRINCIPLE, OR LIFE ELEMENT—IRON.

This is the secret of the wonderful success of this remedy in curing

DYSPEPSIA, LIVER COMPLAINT, DROPSY, CHRONIC DIARRHOEA, BOILS, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Disease of the Kidneys and Bladder, Female Complaints, and all diseases originating in A BAD STATE OF THE BLOOD, or accompanied by DEBILITY, or a LOW STATE OF THE SYSTEM.

Being free from Alcohol in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor and new life into all parts of the system, and building up an IRON CONSTITUTION.

DYSPEPSIA AND DEBILITY.

From the Venerable Archdeacon Scott, D. D.

DUNHAM, Canada East, March 24, 1865.

* * * "I am an inveterate Dyspeptic of more than 25 years' standing."

* * * "I have been so wonderfully benefitted in the three short weeks during which I have used the Peruvian Syrup, that I can scarcely persuade myself of the reality. People who have known me are astonished at the change. I am widely known, and can but recommend to others that which has done so much for me."

One of the most DISTINGUISHED JURISTS in New England writes to a friend as follows:

"I have tried the PERUVIAN SYRUP, and the result fully sustains your prediction. It has made a NEW MAN of me; infused into my system new vigor and energy; I am no longer tremulous and debilitated, as when you last saw me, but stronger, heartier, and with larger capacity for labor, mental and physical, than at any time during the last five years."

An EMINENT DIVINE of Boston, says:

"I have been using the PERUVIAN SYRUP for some time past; it gives me new vigor, buoyancy of spirits, elasticity of muscle."

THOUSANDS have been changed by the use of this remedy; from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

A pamphlet of 32 pages, containing certificates of cures and recommendations from some of the most eminent physicians, clergymen, and others, will be sent FREE to any address.

and is entitled to, merits and receives the general confidence of the public.

SEYMOUR THATCHER, M. D., of Herman, N. Y., writes as follows:

"WISTAR'S BALSAM OF WILD CHERRY gives universal satisfaction. It seems to cure a Cough by loosening and cleansing the lungs, and allaying irritation, thus REMOVING THE CAUSE, instead of drying up the cough and leaving the cause behind. I consider the Balsam as good as any, if not the best, Cough medicine with which I am acquainted."

The Rev. JACOB SECHLER, of Hanover, Pa., well known and much respected among the German population of this country, makes the following statement for the benefit of the afflicted:

Dear Sirs:—Having realized in my family important benefits from the use of your valuable preparation—WISTAR'S BALSAM OF WILD CHERRY—it affords me pleasure to recommend it to the public. Some eight years ago one of my daughters seemed to be in a decline, and little hopes of her recovery were entertained. I then procured a bottle of your excellent Balsam, and before she had taken the whole of the contents of the bottle there was a great improvement in her health. I have, in my individual case, made frequent use of your valuable medicine, and have always been benefitted by it.

JACOB SECHLER.
